FIRE PROTECTION NEED IN TORRANCE IS CITED

Expansion of fire-fighting facilities of Torrance in the outlying sections will be necessary within a year due to rapid home building, it was asserted this week by officials.

North Torrance, already without a fire station and equipment, experiencing rapid residential growth, will be in need of an adequately manned and equipped station within six months, it was said.

In Southwest Torrance the station at Waleria serves not only the Waleria section but Seaside Ranchos and Hollywood Riviera. In these two new tracts, some 1,100 homes are being constructed or are planned. Officials recognize, it was said, that the fire-fighting equipment and personnel is not sufficient to adequately protect that area.

That the City of Torrance may be faced in the near future with the problem of establishing or building two new stations; providing two new pieces of equipment and manning the stations now is an accepted fact, according to authorities.

INDUSTRIAL LEADERS BACK YMCA PROGRAM

Under the auspices of the Torrance Y.M.C.A., a number of industrial leaders met Tuesday night at the Guild hall of the Evangelical United Brethren church to hear William F. Meyer, senior industrial secretary of the National Council Y.M.C.A.'s, tell of "Y" service to industry, from bench to management, throughout the nation.

Meyer stated that the Y.M.C.A. has been closely related to industry for more than 30 years and in serving industry in 181 points with railroads, sponsoring some 90 Foreman's clubs with a total membership of more than 30,000, in inter-plant recreation and leagues, and sponsoring industrial conferences. Last year 7,600 industrial men were brought together through Y.M.C.A. facilities to discuss problems of industry.

He also stated that the Y.M.C.A. has been helpful in organizing young people in industry activities to meet special needs, including educational groups and classes, industrial forums and leadership training.

George Kostoff, Los Angeles metropolitan program secretary, experienced with nine years industrial work in Grand Rapids, Mich., led the local industrialist in a discussion of this extended service of the Y.M.C.A. in Torrance. Some of the possibilities discussed were a City-Wide Foreman's Club, educational and leadership training courses for men in all levels of industry and recreational leagues, possibly by Y.M.C.A. cooperation with City recreation and schools.

After many favorable comments from representatives of local industry, it was decided

by the group to appoint a committee to meet Wednesday, Nov. 19 to take definite steps to develop program ideas.

The committee, led by Al Jackson from International Derrick, will consist of Karl Hansen, National Supply Co.; Stan Briggs, American Radiator and Standard Sanitary; Howard Wiley, Rubber Craft Corp.; N. Draeic, C.I.O. representative; Gil Derouin, president of the local Y.M.C.A. board and Milton Isbell, Y.M.C.A. secretary.

BETSY ROSS CLUB

Betsy Ross' club of the Order of the Eastern Star, will hold its election of officers at a monthly meeting at 12:30 Tuesday, Nov. 18. Mrs. Gladys Mothersell, president, will be in charge of the meeting.
